## Professional Profile

Junior UX and digital design student with a strong focus on responsive interfaces, portfolio storytelling, and polished visual presentation. Comfortable working across research, layout, and front-end implementation for small digital products and personal brand sites.

## Education

**B.I.S. Multimedia** - University of Pretoria (2023 - Present)

Core areas: interaction design, digital communication, user experience foundations, and visual systems.

## Experience

**Freelance Student Design Projects** (2024 - Present)

Created landing pages, portfolio concepts, slide decks, and lightweight brand visuals for student leaders and small local clients.

## Skills

UX research basics, wireframing, interface design, responsive front-end fundamentals, HTML, CSS, JavaScript, typography systems, portfolio storytelling, presentation design.

## Selected Highlights

- Redesigned a campus career portal concept for stronger usability.
- Built a premium stylist portfolio concept with conversion-first layout decisions.
- Developed a student finance dashboard interface focused on clarity and hierarchy.
